Nasuville, June 28, 1858. COL. L. P. CHEATHAN: - Dear Sir :- I have been using the "Resping and Mowing Machine" patentented by Macmey of Illinois, which you are now offering to the citizens of Tennessee. It is a FIRST HATE LABOR SAVING MACHINE. It works nearly and RAPIBLY. The amount cut per day will depend principally upon the speed of the team. If the team can ravel four miles per hour, it will Heap or Mow, lifteen acres a ten hours. It is entitled to the confidence of the public.

Respectfully J. SHELBY.

I, L. F. Bradley, now managing the farm of Dr. Shelby, make the following statement: We have had for more than one week, one of Col. Cheatham's mowing and reaping machines, we have tried it in clover and grain blown and tangled, and I now state that it mows and cuts cleaner than the sythe blade, and that it will mow per day as much as 14 hands, and it can reap at least twenty-four acres per day, june20 t&w. THIS Muldiffers from all others in the construction of the upper or Running Stone, which is composed of French Burr Blocks, enclosed in a cast from Case, which forms the back and hoop of the Stone with a Cast from Eve, or Bush, than is ofgreater external diameter at the bottom that at the top, which is secured to the back by four botts, so that every block is in the form of a dove tail, which gives greater strength to a Stone than any other method which is required in small with gives greater of the state o strength to a Stone than any other method which is required insmall mills, where the stone is run with great speed, and becomes dangerous if not strongly made. It also gives any weight to a stone of small diameter that is required without having it thick or high, that makes it top heavy.

This mill is a square frame made of wood or castiron, in the form of a busk, with Bridge-tree, Spindle Balance, Hing Briver, and Regulating Serew, and grinds ut on the same principle as a large mill, differing only in the Europer Stone; this being of great weight enables it to grind nearer the center agreater quantity of grain with less power than any other mill now in use. This mill is porpable, and may be attached to steam, water, horse or hand power.

ALSO, all sizes of Erench Burr hill Stones, manufactured on the same principle.

These Mills do not require a Millright to set them up; and all that is necessary to put them in operation, is to attach a hand to the pulley on the spindle, with a dram sufficiently large to run a twenty-four inch Mill 240 revolutions per minute, attached to 6in, Steam.or Water Power. By the steady application of two horse power the Mill will grind s.x to 8 bushels per hour of good meal; and will grind wheat as well as corn. The thirty luch mill, if put to its fullest apeed, will grind from ten to fifteen bushels per hour.

These mills are warranted to be in every respect as recommended.

DR. BLEDSOE'S ALTERATIVE COMPOUND The Remonstrover all Remonstration for the Discussion of the Sphen Purpopera, Enlargement and Inflamation of the Sphen Heursbarms, Oslar Flatalence, Piles, Constangation, all diseases of the Boresis, and which diseases as arise from a disease of the Boresis, and diseases are arise from a disease of the Soundel, Liver or Boresis, as Secretar and Server of any bird. For General Deletity, from which Ladies frequently suffer, there is not its equal in the whole Materia Medica.

THE inventor of this preparation was for three years s completely prostrated from Dyspepsia and inactivity of the Liver that he was frequently for weeks at a time unable to raise himself from his bed. He sought aid from physicians at home and in Europe, but in vain; his case was pronounced hopeless by thousands, and it was by accident that he succeeded in curing himself. Since he has been practicing medicine, his success in such cases has been unrivalled. He has been aware of the incredulity of the public, and consequently said nothing through the press of his own case, until the character of the medicine was fully established by its success, as shown by the certificates which have been I subjoin the certificate of Prof. M. I hereby certify that I have been acquainted with Dr. J. N. Bledsee and some years ago he was reduced I and ever lower than I have ever seen any one that afterwards recovered with what I supposed to be Dyspepsia and Liver affection, and after trying the prescriptions of many Physicians in this as well as other countries, without relief, he finally succeeded with a preparation of his own in being restored to good health.

Du. Blanson:—I take the liberty and fell it to be my duty to recommend to all persons suffering from disease of the stonach and howels, your Albanitve Compound, as a very seperior medicine. My son, aged 15 years, had been under medical treatment about five years for dyspepsia and diarrhea—when having almost despaired of his recovery. I concluded to try your Alterative, two bottles of which, I believe, entired, expect him. MICAJAH CAYCE.

Dr. Blenson:—Some time has clapsed since I gave a certificate that my wife had been greatly benefited by your Alterative Compound. I now take pleasure in saving to the public, that my wife had for three or four years been subject to the worst kind of spells of cramp in the stomach from dyspepsia. I had tried of several whom I thought to be the heat observing in the place and a creat ways different the best physicians in the place and a great many different the best physicians in the place and a great many different medicines, with momentary reliaf. Bump persuaded to try your alterative compound, I did so—and I am happy to say that it has entirely cured her; and I would conscientiously recommend it to all persons suffering from diseases of the liver and dyspepsia.

N. B. ROBERTSON.

Henrichte, Sept. 29, 1851. Dr. Bernson—Having seen the publication of your Alter-ative Compound, I think it my duty to say to the public, that I had been for years subject to spells of Cramp Colic, in its worst form; that I had tried almost every thing that is gr ven by physicians, and never found any thing that would cer tainly relieve me, until I tried the above medicine, which has relieved me in every attack in less than an hour.

WM. B. LLOYD.

Gries County, Tenn., Dec. 28, 1851.

Dr. Bersson:—I feel that I should fall short of my duty o you and to those who are afflicted, were I not to further to you and to mose who are afflicted, were 1 not to further recommend your Alterative Compound. It has entirely relieved me, so that I have not had enuse to take anything in two months. I can eat anything I went with impunity, and believe my health is as good as it ever is at my advanced age. Should I ever softer from dyspepsia again I shall be sure to call on you. I am very respectfully your friend.

Extensive preparations have been made for the context both of the invalid and the man of pleasure. It were needless for us to attempt to set forth the value of our place, in a medicinal point of view. Many, afflicted with various diseases, have visited us, and ofter a few weeks sojourn, have gone away either entirely circed or greatly reliaved-particularly such as have been afflicted with Scrofisla, discusses of the Stand, Stone in the Bladder, and also of the Digestive System in general. Of these facts, there is an abundance of proof, and many who have certified to them, and the same have gone forth to the afflicted people. And we have at this time two living specimens of Scrofish cases, cured sound and well, with us, to be seen as testimony to our declaration; one of which was almost a hopsless case.
